

CUSTOMIZED ACCIDENT COVERAGE FOR NON-PROFIT GROUPS

The National Safety Council estimates there are 25,700,000 disabling injuries per year¹. According to one prominent insurance carrier this represents over 2,900 disabling injuries every hour. Unfortunately, many of these accidents occur while people are participating in some form of community service or while at school, camp, or a special event.

There is a wide array of plans available to address these group-sponsored activities or events.
